

Chukwuemeka Iheonye

Senior Product Designer

Nottingham, UK (GMT/BST) | Full right to work in the UK | +44 7440 165516 | kingsleyiheonye@gmail.com
Portfolio: chukwuemeka-portfolio-one.vercel.app | LinkedIn: linkedin.com/in/chukwuemeka-iheonye

PROFILE

Senior Product Designer with 7+ years designing fintech, SaaS and enterprise products, including mobile banking for 3M+ customers at Carbon and BAFTA's albert sustainability platform. I lead end to end, from user research and design systems to accessible, WCAG-aligned interfaces, and I build what I design: I use AI tools such as Claude Code to turn designs into working React prototypes and production front ends, most recently shipping Character Guess, a live multiplayer web game.

EXPERIENCE

Product Designer

Oct 2024 – Present

Writesea | Remote

- Design end-to-end flows for an AI-powered writing and publishing platform, from onboarding to content creation, shipping AI-enabled features in agile sprints.
- Partnered with product and engineering to launch a template builder, shortening time to market and cutting support workload by 0.5 FTE.
- Designed admin modules for universities and resellers, improving performance and customer satisfaction.
- Run usability tests and contribute components and patterns to the design system.

Senior Product Designer (Contract)

Jul 2024 – Aug 2025

BAFTA (albert) | London, UK

- Led UX for albert, BAFTA's sustainability platform for the UK media industry, from discovery through delivery.
- Improved accessibility and engagement by 25% by redesigning journeys and UI to WCAG standards.
- Increased user satisfaction and engagement by 30% by grounding designs in user research and usability testing.
- Owned the design process from ideation and wireframes to high-fidelity prototypes, partnering with product managers and engineers through implementation.
- Created journey maps and user flows that aligned stakeholders, and championed user-centred design across digital teams.

Lead Product Designer

Nov 2022 – Mar 2024

Carbon MFB | Remote

- Led the redesign of savings and Buy Now Pay Later (Carbon Zero) journeys on iOS and Android, increasing user engagement by 40%.
- Led the loans redesign for a digital bank serving 3M+ customers, grounded in 15 interviews and 2,700+ survey responses: loan applications rose 20% (target 15%), drop-offs fell 10% and non-performing loans fell 10%.
- Led 2 designers within a 12-person cross-functional team, and maintained and extended a design system across multiple product lines.
- Used Mixpanel and Google Analytics insights to iterate on flows and improve conversion, and presented design strategy to senior leadership.

Senior UX Researcher

Mar 2022 – Nov 2022

Carbon MFB | Remote

- Ran qualitative and quantitative research (interviews, surveys, usability tests) that informed design iterations and improved user retention by 25%.
- Restructured information architecture and streamlined onboarding based on research findings.
- Built wireframes and prototypes to test ideas and align cross-functional teams before build.

Senior Product Designer

Jul 2021 – Mar 2022

Softcom | Lagos, Nigeria

- Designed B2C and B2B2C SaaS products, increasing user satisfaction by 20%.
- Turned research with product managers into mobile-first, platform-specific designs, and worked with developers so the build matched design intent.
- Delivered multiple design projects in parallel, on time and to a consistent quality bar.

Senior UX/UI Designer

Oct 2020 – Jun 2021

Software Business Solution Consulting (SBSC) | Lagos, Nigeria

- Designed products for NIBSS (Nigeria Inter-Bank Settlement System) used internally by every bank in Nigeria (under NDA).
- Designed NippyBoxes, a logistics marketplace that launched with 50+ vendors and 200+ riders and drivers and reached 10,000+ users in its first month, plus Coinbycedar, a crypto wallet for first-time investors.
- Ran usability tests and iterated designs based on user feedback and performance metrics.

Product Designer

Dec 2019 – Sep 2020

ThankYouCash (Connected Analytics) | Lagos, Nigeria

- Designed loyalty and rewards products for 400+ merchants, from fuel stations to coffee brands, used by 200K+ customers across web and mobile.

Product Designer & Front-end Developer

Jun 2019 – Dec 2019

Traindemy | Lagos, Nigeria

- Designed and built the front end of a vocational education platform for 40+ teachers and 10,000+ learners.

SELECTED PROJECTS

Character Guess

Aug 2025 – Present

Product Designer and front-end developer, built with AI | characterguess.com

- Designed and built a live multiplayer quiz game with Claude Code, working with a backend engineer and a product manager; reached 100+ beta players through word of mouth.
- Shipped 3,000+ questions across 6 categories and 3 languages, on one responsive design system from 320px to 4K, installable as a PWA.

Africhange

Freelance Lead Designer for Africhange Ltd, cross-border payments

- Designed a wallet-based transfer experience that cut transfers from North America to Africa from about 2 hours to about a minute, across iOS, Android, web app and marketing site.
